Cet ouvrage a un air de famille en levant nos moments agréables ou désagréables de notre quotidien, les réflexions qu'ils nous ont fait passer. Réviser une recette, comme photo, se coucher dans des draps propres, l'éclatante détente d'une chaussette, le même moment qu'une autre personne, retirer ses chaussures en fin de journée, l'odeur du monde ou de toute autre chose qui nous rappelle les vacances... En fin de compte, c'est un livre de la vie, un livre de la vie.
